Unlimited Results ™

Welcome to the FlexTraining Education Solution

Why FlexTraining?

Consider the way your company or organization operates. You depend on the performance of your leaders, your managers and staff. Can you think of some members of your talent pool who perform best when then are properly trained and educated? Would improved performance be worth $4 - $7 per month? If so, a FlexTraining education solution can pay for itself immediately.

Perhaps you are already doing face-to-face training or using hard-to-track slideshows and documents. If so, you can add another layer of savings and improvements that come with adopting FlexTraining. We make it happen through secure online training and testing solutions for your employees, customers, or clients who require one-time or recurrent training.

Hundreds of companies and organizations around the globe have turned to FlexTraining as a strategic advantage. We deliver and track online education for over two million online learners. Save time, save money, energize your training, meet deadlines, track certifications, and improve performance.

Our Vision

We believe that on-demand training should be available to public and private sector customers of all sizes and within all markets. Therefore it should be streamlined and effective, should allow customers to re-use their existing training materials, and should yield a very low overall cost of ownership. In addition, we promote simplicity by offering a complete solution from a single source. We also offer a choice between a complete turnkey education facility and a do-it-yourself tool set with built-in course authoring. Finally, in order to maximize convenience for our customers, we always allow the customer to choose between installing an in-house software solution and utilizing a subscription-based private training center.

Choices. Simplification. Flexibility. Results.

One Vision – Two Solutions

Your own installed Learning Management System

E-Learning Instructional designers agree that the key to effective learning is interactivity. Our built in exercise templates, dynamic images and multimedia support give you a powerful E-Learning toolset. FlexTraining Learning Management System is a complete end-to-end training framework, designed from the ground up for effective web-based training
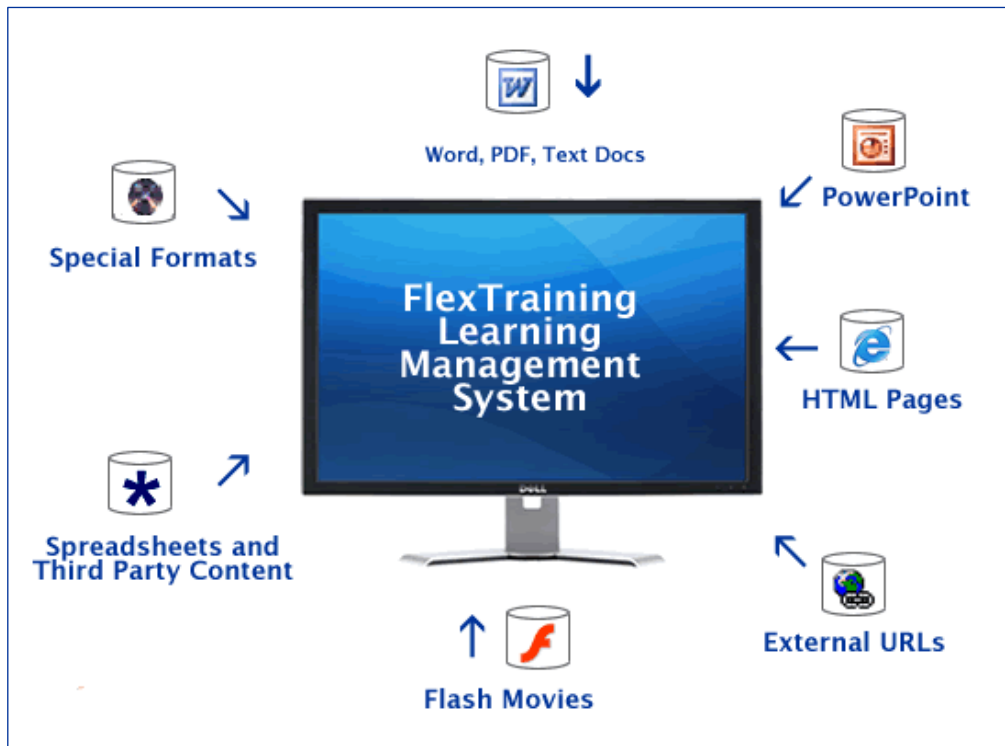

An always-available online private training center

Some companies do not have a web server or are not interested in licensing an E-Learning Software package. For these organizations, our Login & Go service is the perfect answer. Subscribers have a complete development, management and training system with built-in security and comprehensive reporting. All system features are available, including course authoring, curriculum planning, results tracking, testing, and uploading and downloading student data.

FlexTraining E-Learning Software

Solution 1: Proven behind-the-firewall Learning Management System

✓ **One-time initial fee provides a perpetual license**

✓ **Start training this week after a simple installation and setup**

✓ **Re-use existing training material (videos, text, images, etc.)**

✓ **One-stop shopping - no need to buy tools from multiple suppliers**

✓ **Very low per-student operating costs**

✓ **Grow your system without re-entering data or rebuilding courses**

✓ **Secure deployment inside your firewall for maximum control**

✓ **Few technical or administrative resources needed to operate**

✓ **Source code is included in case of desired customization**

✓ **Designed from the ground up for flexibility and simplicity**

FlexTraining Login & Go Subscription

Solution 2: Private, Secure Hosted Training Center available 24 X 7

Many customers opt for a subscription arrangement. We call it "Login & Go", and you can use it for a Proof of Concept, a smaller-scale Pilot Project, or a full-blown long-term solution for thousands of online learners.

Each private training center delivers the following benefits:

- ✓ **Start training this week, not months from now**
- ✓ **Re-use existing training material (videos, text, movies, images, etc.)**
- ✓ **No need for large up-front investment**
- ✓ **Very low per-student costs per month**
- ✓ **Reliable 24 X 7 system availability**
- ✓ **Secure menus for managers, instructors, course developers**
- ✓ **Standards-based design for performance and simplicity**
- ✓ **No need to buy or Install Software**

Instructor-led or Computer-based
